

[PRODUCT-1451] UAC - Azure Custom Onboarding - BYOSP

User Acceptance Criteria:

1. Use Existing Service Principal -Onboarding Wizard

Step 1: Subscription Details

...I can **enter subscription details and select a connection method** by:

1. Clicking "Connect New Azure Subscription" from the Azure Subscriptions listing page
2. Seeing the "Connect Subscription" wizard open with Step 1: "Enter Subscription Details"
3. Seeing three mandatory fields:
 - a. "Subscription Name" -text input with placeholder "Enter subscription name"
 - b. "Subscription ID" -text input with placeholder "Enter your subscription ID"
 - c. "Connection Method" -two radio-card options displayed side by side
4. Seeing the "Next" button in the bottom-right corner is disabled until all three fields are provided

...I can **select "Use Existing Service Principal" as the connection method** by:

1. Clicking the "Use Existing Service Principal" radio-card (key icon, description: "Connect using an existing Service Principal in your Azure subscription.")
2. Seeing the card become highlighted with a blue border and filled radio button
3. Seeing Steps 2 through 5 appear in the left navigation: "Service Principal Details", "Configure Access", "Discover", "Finish"
4. Seeing the "Next" button label update to "Next: Service Principal Details" (solid blue, enabled -assuming Subscription Name and Subscription ID are also filled)

...I can **select "Create New Service Principal" as the connection method** by:

1. Clicking the "Create New Service Principal" radio-card (+ icon, description: "MontyCloud will generate a CLI command to create and configure a new Service Principal in your Azure subscription.")
2. Seeing the card become highlighted with a blue border and filled radio button
3. Seeing the existing "Create New SP" onboarding flow continue as-is (no changes to the existing flow beyond the addition of Subscription ID in Step 1)

+ Create New Service Principal
MontyCloud will generate a CLI command to create and configure a new Service Principal in your Azure subscription.

Use Existing Service Principal
Connect using an existing Service Principal in your Azure subscription.

Next: Service Principal Details

Step 2: Service Principal Details -Empty State

...I can **view the Service Principal details form** by:

1. Clicking "Next: Service Principal Details" on Step 1
2. Seeing Step 2 page heading: "Provide Service Principal Details"
3. Seeing a blue info banner at the top: "To retrieve these details, refer to Azure documentation here." (with "here" as a clickable hyperlink)
4. Seeing four mandatory fields, all empty:
 - a. "Azure Tenant ID" -text input with placeholder "Enter your Tenant ID"
 - b. "Service Principal ID" -text input with placeholder "Enter your Service Principal ID"
 - c. "Service Principal Secret" -password input (masked) with placeholder "Enter your Service Principal Secret"
 - d. "Service Principal Secret Expiry Date" -date picker with placeholder "Enter expiry date of the Service Principal Secret (MM/DD/YYYY)"
5. Seeing the "Validate Credentials" button below the form fields -disabled (greyed out) because no fields are populated
6. Seeing two buttons at the bottom: "Previous" (left) and "Next: Configure Access" (right, disabled)

Validating...

Previous

Next: Configure Access

Step 2: Service Principal Details -Validation Success

...I can **see successful credential validation** by:

1. Seeing a green banner appear below the button with:
 - a. Heading: "Credentials validated successfully"
 - b. Sub-text: "Authentication succeeded and the required permissions were verified for this subscription. You can proceed with onboarding."
2. Seeing only the "Azure Tenant ID" field remain greyed out and read-only (locked after successful validation), while "Service Principal ID", "Service Principal Secret", and "Service Principal Secret Expiry Date" remain editable (white background)
3. Seeing the "Validate Credentials" button become disabled (visible but not clickable)
4. Seeing the "Next: Configure Access" button become enabled (solid blue)

The screenshot shows a web interface titled "Connect Subscription" with a sidebar on the left containing five steps: 1. Subscription Details, 2. Service Principal Details (highlighted with a blue circle), 3. Configure Access, 4. Discover, and 5. Finish. The main content area is titled "Provide Service Principal Details" and contains a link "To retrieve these details, refer to Azure documentation here." Below this are four input fields: "Azure Tenant ID" (containing "a0dc95c6-b8a8-4b29-8152-d3293f8f7b00"), "Service Principal ID" (containing "be204269-c1bb-48c0-be4d-ab9a0c2a0fb3"), "Service Principal Secret" (masked with dots), and "Service Principal Secret Expiry Date" (containing "03/13/2026"). A blue button labeled "Validate Credentials" is positioned below the fields. At the bottom of the form, a green banner displays the message: "Credentials validated successfully. Authentication succeeded and the required permissions were verified for this subscription. You can proceed with onboarding." At the bottom right of the interface, there are two buttons: "Previous" (disabled, greyed out) and "Next: Configure Access" (enabled, solid blue).

Step 2: Service Principal Details -Re-validation After Edit

...I can **trigger re-validation after editing fields** by:

1. After successful validation, editing any of the three editable fields: "Service Principal ID", "Service Principal Secret", or "Service Principal Secret Expiry Date"
2. Seeing the "Validate Credentials" button become enabled (solid blue) as soon as any field value changes
3. Seeing the "Next: Configure Access" button become disabled again (greyed out) -the user must re-validate before proceeding

4. Clicking "Validate Credentials" to re-run the validation with the updated values
5. Seeing the same 3-state validation outcome (success / missing permissions / authentication failure)

Step 2: Service Principal Details -Missing Permissions

...I can **see missing permissions after validation** by:

1. Seeing a yellow/amber warning banner appear below the button with:
 - a. Heading: "Additional permissions required"
 - b. Sub-text: "The Service Principal credentials were authenticated successfully, but the required permissions were not detected. MontyCloud needs additional permissions to create resources during onboarding."
 - c. A "Required Additional Permissions" section listing the specific missing permissions as bullets (e.g., "Microsoft.Authorization/roleAssignments/write", "Microsoft.Resources/deployments/write", "Microsoft.Insights/register/action")
2. Seeing all four form fields return to editable (white background, not greyed out)
3. Seeing the "Validate Credentials" button remain enabled for re-validation
4. Seeing the "Next: Configure Access" button remain disabled

The screenshot shows a web interface titled "Connect Subscription" with a sidebar on the left containing five steps: 1. Subscription Details, 2. Service Principal Details (active), 3. Configure Access, 4. Discover, and 5. Finish. The main content area is titled "Provide Service Principal Details" and contains four input fields: "Azure Tenant ID" (value: a0dc95c6-b8a8-4b29-8152-d3293f8f7b00), "Service Principal ID" (value: be204269-c1bb-48c0-be4d-ab9a0c2a0fb3), "Service Principal Secret" (masked with dots), and "Service Principal Secret Expiry Date" (value: 03/13/2026). Below these fields is a blue "Validate Credentials" button. A yellow warning banner is displayed below the button, titled "Additional permissions required". The banner text states: "The Service Principal credentials were authenticated successfully, but the required permissions were not detected. MontyCloud needs additional permissions to create resources during onboarding." Below this text is a section titled "Required Additional Permissions" with a bulleted list: "Microsoft.Authorization/roleAssignments/write", "Microsoft.Resources/deployments/write", and "Microsoft.Insights/register/action". At the bottom right of the form are two buttons: "Previous" and "Next: Configure Access".

Step 2: Service Principal Details -Authentication Failure

...I can **see authentication failure after validation** by:

1. Seeing a yellow/amber warning banner appear below the button with:

- a. Heading: "Credential validation failed"
 - b. Sub-text: "The Service Principal credentials could not be authenticated. Please verify the Service Principal ID, secret, tenant ID, and subscription ID, then try validating again."
2. Seeing all four form fields return to editable (white background, not greyed out)
 3. Seeing the "Validate Credentials" button remain enabled for re-validation
 4. Seeing the "Next: Configure Access" button remain disabled

Connect Subscription

Service Principal Secret *

Service Principal Secret Expiry Date *

03/13/2026

Validate Credentials

Credential validation failed
The Service Principal credentials could not be authenticated. Please verify the Service Principal ID, secret, tenant ID, and subscription ID, then try validating again.

Previous Next: Configure Access

Step 2: Navigation

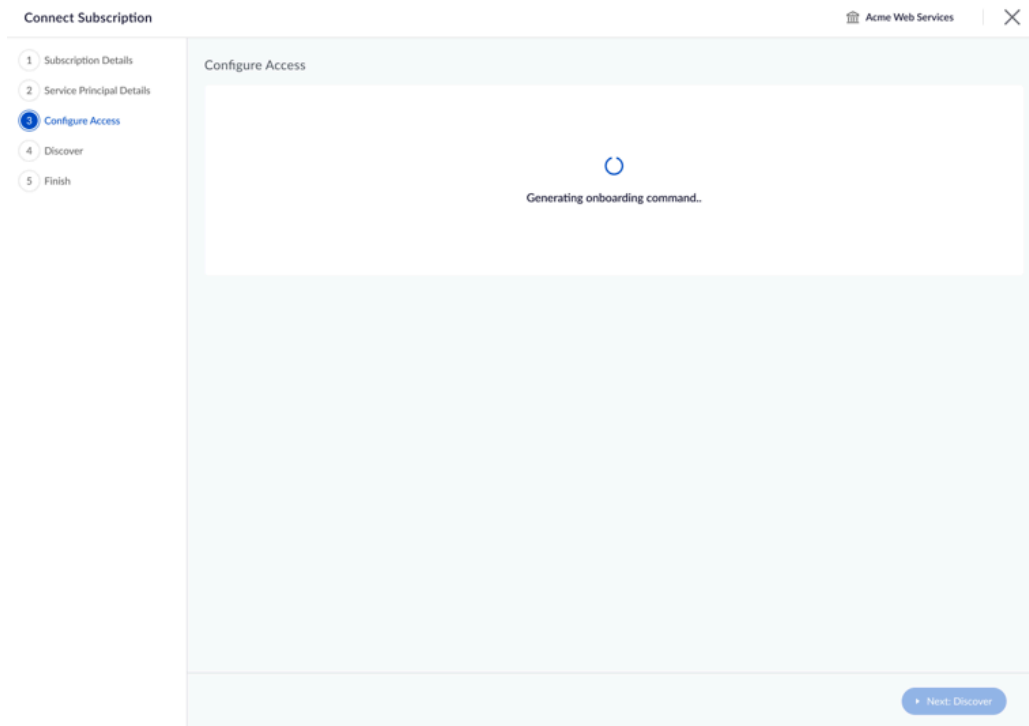

...I can **navigate back to Step 1 without losing data** by:

1. Clicking the "Previous" button at the bottom-left of Step 2
2. Returning to Step 1 with the Subscription Name, Subscription ID, and Connection Method values preserved
3. Clicking "Next: Service Principal Details" to return to Step 2 with all previously entered Service Principal details preserved

Step 3: Configure Access -Loading State

...I can **see the onboarding command being generated** by:

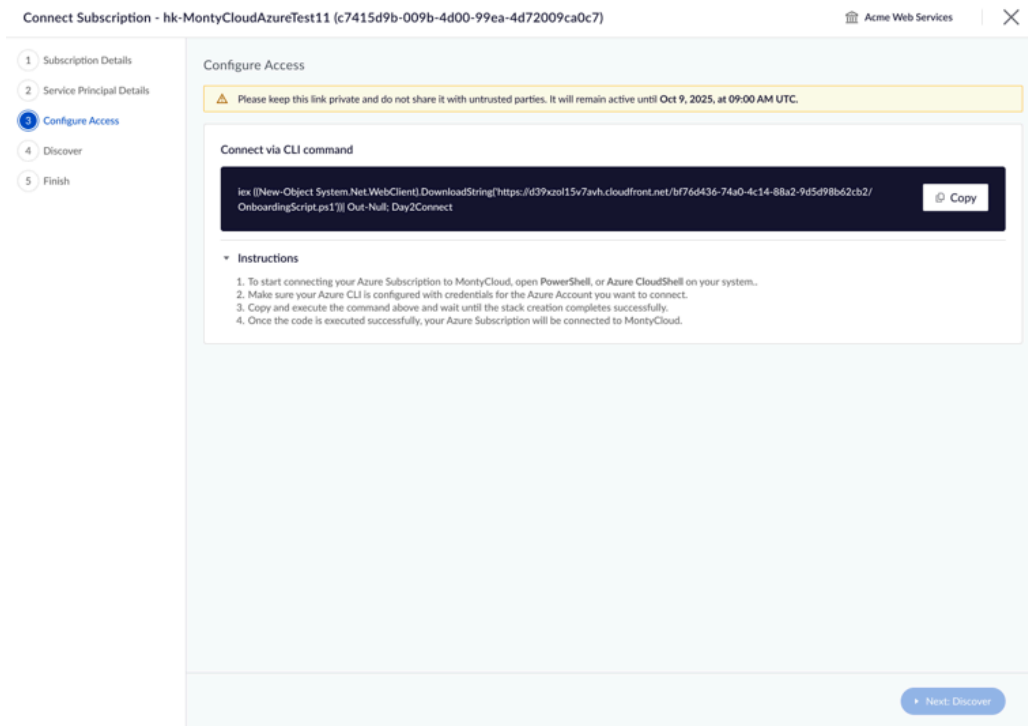

1. Clicking "Next: Configure Access" after successful credential validation on Step 2
2. Seeing Step 3 page heading: "Configure Access"
3. Seeing a loading spinner with the message: "Generating onboarding command.."
4. Seeing the "Next: Discover" button in the bottom-right corner is disabled

Step 3: Configure Access -CLI Command

...I can **view and copy the onboarding CLI command** by:

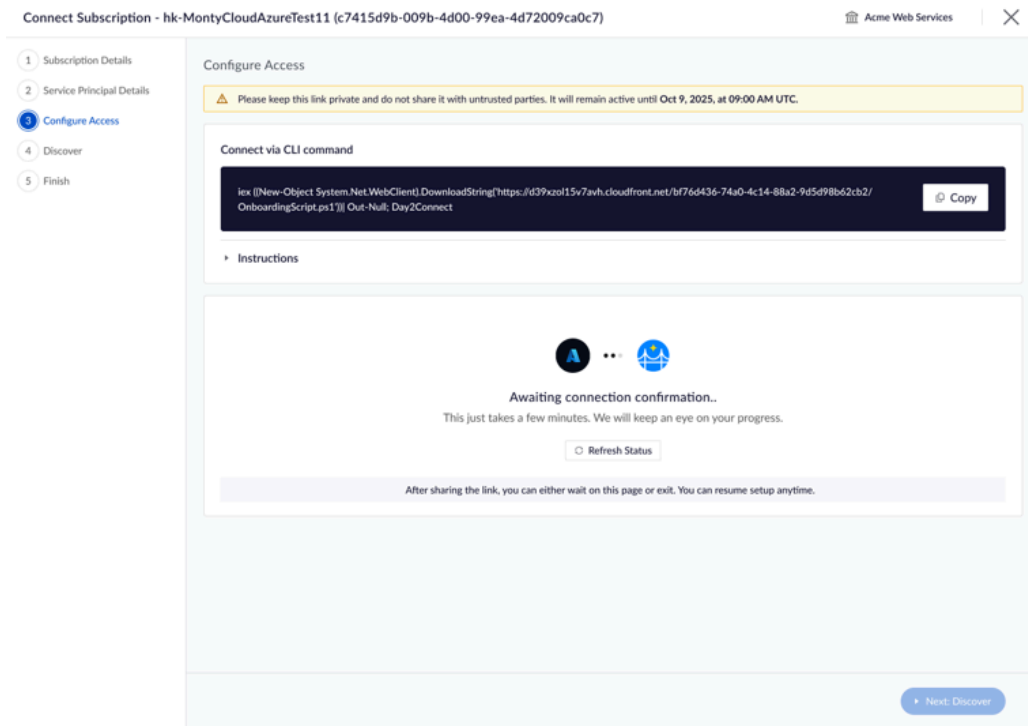

1. Seeing the loading spinner replaced by the Configure Access page with:
 - a. A yellow warning banner at the top: "Please keep this link private and do not share it with untrusted parties. It will remain active until **[expiry date/time UTC]**." (e.g., "Oct 9, 2025, at 09:00 AM UTC")
 - b. A "Connect via CLI command" section with a dark-themed code block displaying the PowerShell command
 - c. A "Copy" button on the right side of the code block
2. Seeing an expandable "Instructions" section with 4 numbered steps:
 - a. "To start connecting your Azure Subscription to MontyCloud, open **PowerShell** or **Azure CloudShell** on your system.."
 - b. "Make sure your Azure CLI is configured with credentials for the Azure Account you want to connect."
 - c. "Copy and execute the command above and wait until the stack creation completes successfully."
 - d. "Once the code is executed successfully, your Azure Subscription will be connected to MontyCloud."
3. Seeing the wizard title bar update to include the subscription name and ID (e.g., "Connect Subscription - hk-MontyCloudAzureTest11 (c7415d9b-009b-4d00-99ea-4d72009ca0c7)")

Step 3: Configure Access -Awaiting Connection

...I can **wait for connection confirmation** by:

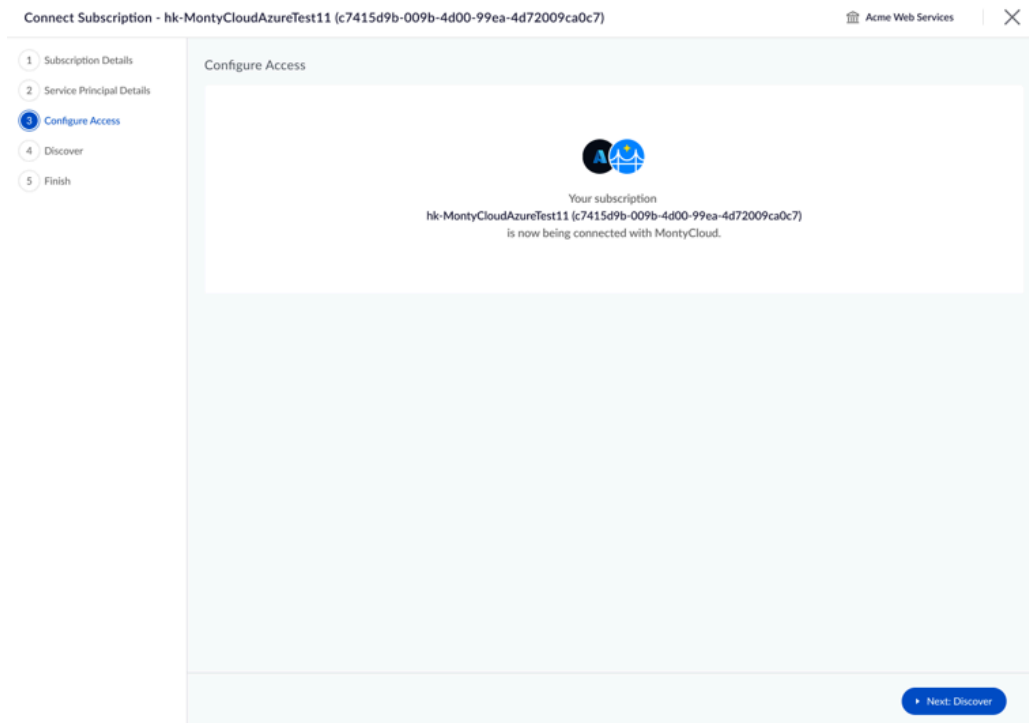

1. Seeing the Instructions section collapsed (collapsible toggle)
2. Seeing a connection status section below the CLI command with:
 - a. Azure logo and MontyCloud logo with animated dots between them
 - b. Message: "Awaiting connection confirmation.."
 - c. Sub-text: "This just takes a few minutes. We will keep an eye on your progress."
 - d. A "Refresh Status" button to manually poll for connection status
3. Seeing an info bar at the bottom: "After sharing the link, you can either wait on this page or exit. You can resume setup anytime."
4. Seeing the "Next: Discover" button remain disabled

Step 3: Configure Access -Connection Successful

...I can **see that the subscription has been connected successfully** by:

1. Seeing the Azure and MontyCloud logos overlapping (no dots between them)
2. Seeing the message:
 - a. "Your subscription"
 - b. Subscription name and ID in bold (e.g., "hk-MontyCloudAzureTest11 (c7415d9b-009b-4d00-99ea-4d72009ca0c7)")
 - c. "is now being connected with MontyCloud."
3. Seeing the "Next: Discover" button become enabled (solid blue)
4. Clicking "Next: Discover" to proceed to Step 4 (Discover) -which behaves identically to the existing flow

2. Create New Service Principal -Onboarding Wizard (Step 1 Changes Only)

Step 1: Subscription Details -Select "Create New Service Principal"

...I can **select "Create New Service Principal" and proceed to Configure Access** by:

1. Clicking "Connect New Azure Subscription" from the Azure Subscriptions listing page
2. Seeing the "Connect Subscription" wizard open with Step 1: "Enter Subscription Details"
3. Entering a value in the "Subscription Name" field (e.g., "Acme_Testing")
4. Entering a value in the "Subscription ID" field (e.g., "c7415d9b-009b-4d00-99ea-4d72009ca0c7")
5. Clicking the "Create New Service Principal" radio-card (+ icon, description: "MontyCloud will generate a CLI command to create and configure a new Service Principal in your Azure subscription.")
6. Seeing the card become highlighted with a blue border and filled radio button
7. Seeing the left navigation update to show 4 steps: Subscription Details → Configure Access → Discover → Finish (no "Service Principal Details" step)
8. Seeing the "Next" button label update to "Next: Configure Access" (solid blue, enabled - assuming Subscription Name and Subscription ID are also filled)
9. Clicking "Next: Configure Access" to proceed to Step 2 (Configure Access) -which follows the existing onboarding flow with no changes beyond receiving the Subscription ID from Step

Note: Steps 2 through 4 (Configure Access, Discover, Finish) remain identical to the existing "Create New Service Principal" onboarding flow. The only change to this flow is the addition of the Subscription ID field in Step 1, which is passed to the onboarding script to validate the correct subscription.

The image displays two screenshots of the "Connect Subscription" dialog box, illustrating the steps in the onboarding flow.

Top Screenshot: The "Subscription Details" step is active. The "Enter Subscription Details" section contains two input fields: "Subscription Name" (placeholder: "Enter subscription name") and "Subscription ID" (placeholder: "Enter your subscription ID"). Below these fields, the "Connection Method" section offers two radio button options: "Create New Service Principal" (selected) and "Use Existing Service Principal". The "Create New Service Principal" option includes a description: "MontyCloud will generate a CLI command to create and configure a new Service Principal in your Azure subscription." A "Next" button is visible at the bottom right.

Bottom Screenshot: The "Subscription Details" step is still active, but the "Subscription Name" field now contains "Acme_Testing" and the "Subscription ID" field contains "c7415d9b-009b-4d00-99ea-4d72009ca0c7". The "Create New Service Principal" option remains selected and is highlighted with a blue border. The "Next" button is now labeled "Next: Configure Access".

3. Azure Subscriptions Listing Page -Secret Expiry & Status States

Listing Page -Warning Banner & Grid Overview

...I can **view the Azure Subscriptions listing page with secret expiry tracking** by:

1. Navigating to Settings > Cloud Accounts > Azure
2. Seeing the page heading: "Azure Subscriptions" with sub-text: "Manage all your connected cloud subscriptions in one place."
3. Seeing two tabs at the top: "Connected" (with count badge, e.g., "52") and "Pending" (with count badge, e.g., "2")
4. Seeing a yellow warning banner below the tabs when one or more subscriptions have issues:
 - a. Warning triangle icon
 - b. Text: "[N] subscriptions have Service Principal secrets that are expired or nearing expiry. Update them to ensure MontyCloud features continue to work properly."
 - c. A "View" link at the far right of the banner
5. Seeing the "Connect New Azure Subscription" button in the top-right corner (blue)

Results per page 10 Showing 1 - 10 of 52 1 of 6

Listing Page -Grid Columns & Subscription Rows

...I can **view subscription details with secret expiry and status information** by:

1. Seeing the grid with the following columns:
 - a. "SUBSCRIPTION DETAILS" -Subscription name (blue hyperlink) + Service Principal ID below (grey text). Warning triangle icon (⚠️) next to the name for subscriptions with expired or expiring secrets only. Connection Lost subscriptions do not display the warning triangle.
 - b. "SUBSCRIPTION STATUS" -Green dot with "Connected" or Red dot with "Connection Lost"
 - c. "PERMISSIONS" -Permission level (e.g., "Advanced")

- d. "SECRET EXPIRY DATE (UTC)" -The stored secret expiry date/time. Displayed in red text if expired or within 90 days of expiry.
 - e. "ACTIONS" -Two action links per row: "Info" (blue link) + "More >" (blue link)
2. Seeing a toolbar above the grid with: "Filters" button with search icon, view toggle icons (grid/list/table), and a refresh icon
 3. Seeing pagination at the bottom: "Results per page" selector (e.g., "10") + page navigation ("Showing 1 – 10 of [N]")

Listing Page -Tooltip Hover States

...I can **see detailed secret expiry information on hover** by:

1. Hovering over the warning triangle icon (⚠) next to a subscription name with an expired or expiring secret
2. Seeing a dark tooltip appear with the message: "Service Principal secret is expired or nearing expiry"

Note: The tooltip is only shown for secret-expiry warning triangles. Connection Lost subscriptions do not display a warning triangle or tooltip -they use the "View Error" action instead (see below).

The screenshot shows the MontyCloud interface with the 'Azure Subscriptions' page. A yellow banner at the top states: '6 subscriptions have Service Principal secrets that are expired or nearing expiry. Update them to ensure MontyCloud features continue to work properly.' Below this is a table with columns: SUBSCRIPTION, SUBSCRIPTION STATUS, PERMISSIONS, SECRET EXPIRY DATE (UTC), and ACTIONS. A tooltip is visible over the first row, indicating 'Service Principal secret is expired or nearing expiry'.

Listing Page -Row Actions for Connection Lost Subscriptions (More >)

...I can **access actions for a Connection Lost subscription** by:

1. Clicking "More >" in the ACTIONS column of a **Connection Lost** subscription row
2. Seeing a dropdown menu with one option:
 - a. "View Error" -opens the Connection Lost error info modal (see below)
3. Clicking "View Error" to view the connection error details

Note: Connection Lost rows do not show "Edit Subscription" or "Disconnect Subscription" -only "View Error" is available.

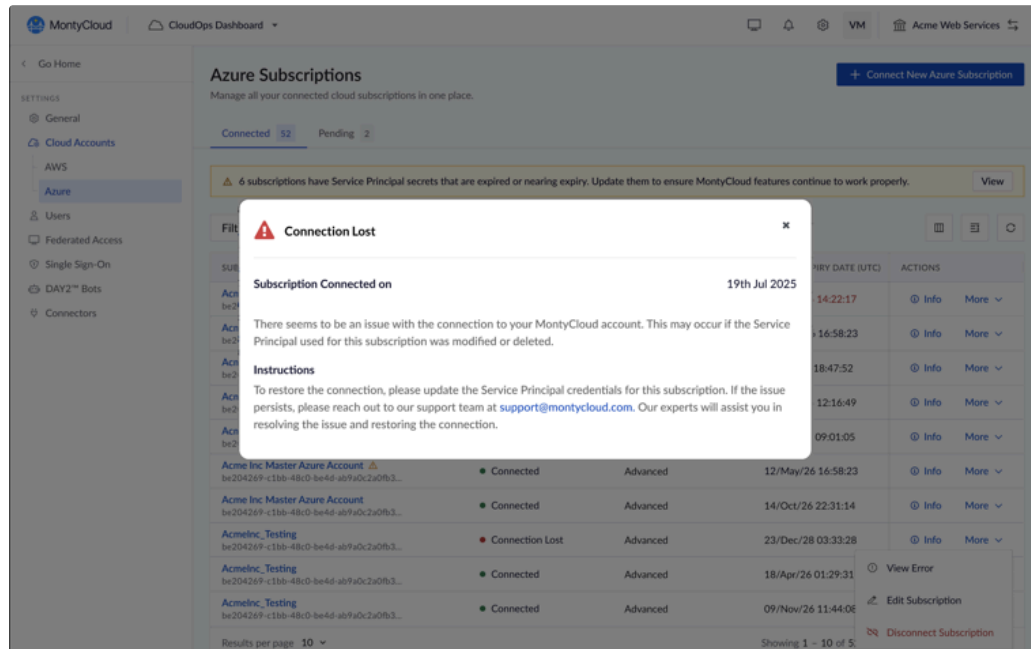

Listing Page -Connection Lost Error Info Modal

...I can **view details about a connection lost subscription** by:

1. Clicking "View Error" from the "More >" dropdown on a Connection Lost subscription row
2. Seeing a modal popup with:
 - a. Red warning icon + title: "Connection Lost"
 - b. "Subscription Connected on" + date (e.g., "19th Jul 2025")
 - c. Description: "There seems to be an issue with the connection to your MontyCloud account. This may occur if the Service Principal used for this subscription was modified or deleted."
 - d. Heading: "Instructions"

e. Instructions text: "To restore the connection, please update the Service Principal credentials for this subscription. If the issue persists, please reach out to our support team at support@montycloud.com. Our experts will assist you in resolving the issue and restoring the connection."

3. Clicking the close button (X) in the top-right corner to dismiss the modal

Listing Page -Pending Tab

...I can **view pending subscriptions** by:

1. Clicking the "Pending" tab (with count badge)
2. Seeing the grid update to show subscriptions in pending onboarding states
3. Seeing columns: "SUBSCRIPTION DETAILS", "LINK STATUS" (e.g., "Expired", "Pending"), "LINK EXPIRES ON (UTC)", "LINK GENERATED ON (UTC)", "ACTIONS"
4. Seeing subscription rows with status badges in red ("Expired") or orange ("Pending")
5. Seeing ACTIONS column per row: "Regenerate" link, "Resume" link, "Delete" link, "More >"

Listing Page -Delete Onboarding Link Confirmation

...I can **delete a pending onboarding link** by:

- Clicking "Delete" in the ACTIONS column of a pending subscription row
- Seeing a confirmation modal with:
 - Title: "Delete Onboarding Link"

- b. Subtitle: "[Subscription Name] ([Subscription ID])" -e.g., "Acme Inc Azure Subscription (be204269-c1bb-48c0-be4d-ab9a0c2a0fb3)"
 - c. Body text: "Are you sure you want to delete the onboarding link of [Subscription Name] ([Subscription ID])?"
 - d. Two buttons: "Cancel" (grey) and "Delete" (red)
3. Clicking "Delete" to remove the pending onboarding link, or "Cancel" to dismiss the modal

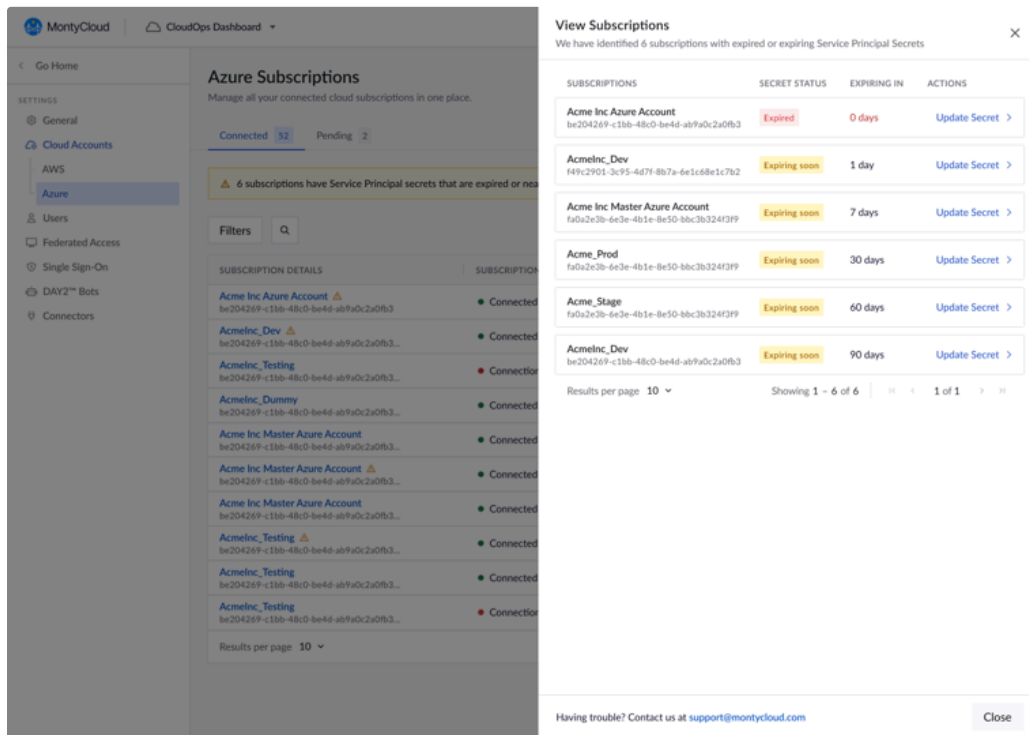

4. Update Secret -View & Update Expiring/Expired Service Principal Secrets

View Subscriptions Modal -List of Affected Subscriptions

...I can **view all subscriptions with expired or expiring secrets** by:

1. Clicking "View" on the yellow warning banner on the Azure Subscriptions listing page
2. Seeing a side panel open on the right with heading: "View Subscriptions"
3. Seeing sub-header: "We have identified [N] subscriptions with expired or expiring Service Principal Secrets"
4. Seeing a table with columns:
 - a. Subscription name + Service Principal ID below
 - b. "SECRET STATUS" -Badge: "Expired" (red background) or "Expiring soon" (yellow background)
 - c. "EXPIRING IN" -Dynamic countdown in days (e.g., "0 days", "1 day", "60 days", "90 days")
 - d. "ACTIONS" -"Update Secret >" link (blue text)

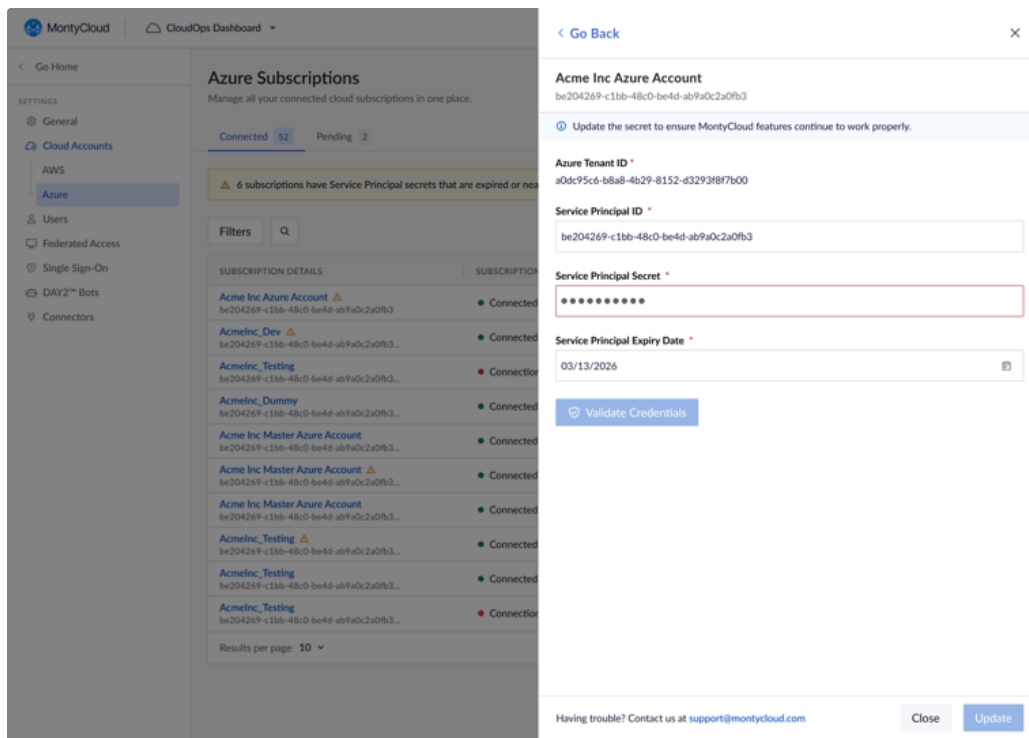

5. Seeing pagination: "Results per page" selector + page navigation (e.g., "Showing 1 – 5 of 5")
6. Seeing footer: "Having trouble? Contact us at support@montycloud.com" + "Close" button

Update Secret -Credential Update Form

...I can **update the Service Principal secret for a subscription** by:

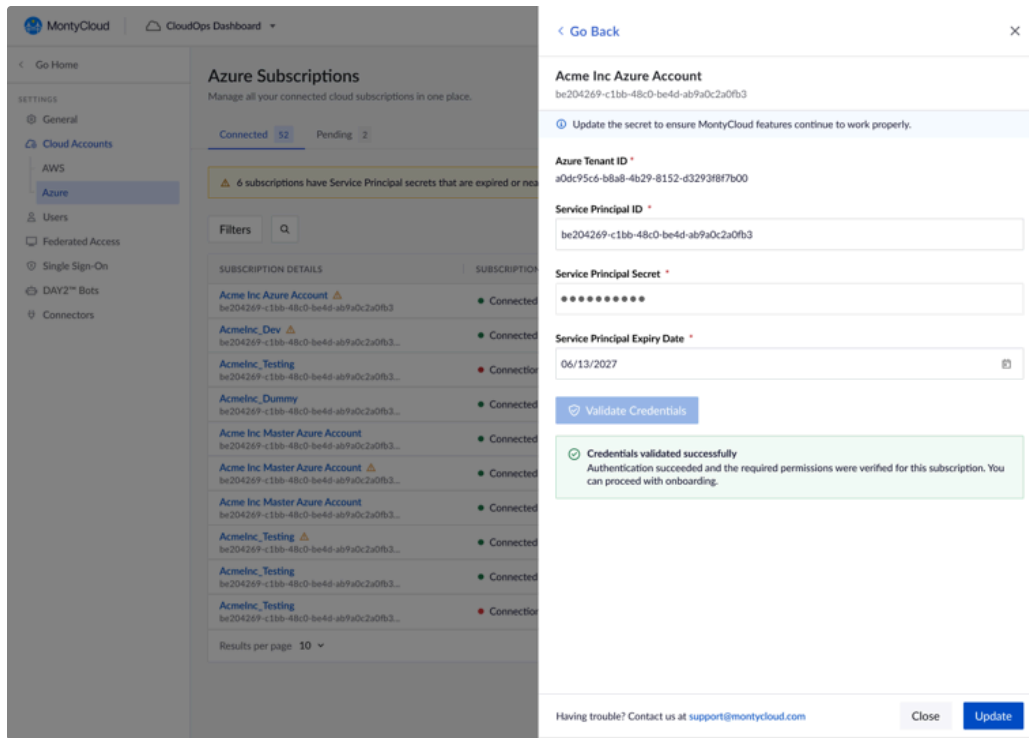

1. Clicking "Update Secret >" on a subscription row in the View Subscriptions panel
2. Seeing the panel navigate to the update form with:
 - a. "< Go Back" link at top-left (returns to the subscription list)
 - b. Header: Subscription name (e.g., "Acme Inc Azure Account") + Service Principal ID below
 - c. Blue info banner: "Update the secret to ensure MontyCloud features continue to work properly."
3. Seeing four form fields:
 - a. "Azure Tenant ID" -read-only, pre-populated (greyed out, not editable)
 - b. "Service Principal ID" -editable text input, pre-populated with current value
 - c. "Service Principal Secret" -editable password input (masked), field highlighted with red border for input focus
 - d. "Service Principal Expiry Date" -editable date picker with calendar icon, pre-populated with current expiry (e.g., "03/13/2026")
4. Seeing a "Validate Credentials" button below the form fields (blue, enabled)
5. Seeing footer buttons: "Close" (grey) and "Update" (blue)

Update Secret -Validation Success

...I can **see successful credential validation in the update flow** by:

1. After entering the new secret and optionally updating the expiry date (e.g., changing to "06/13/2027")
2. Clicking "Validate Credentials"
3. Seeing a green success banner appear below the button:
 - a. Heading: "Credentials validated successfully"
 - b. Sub-text: "Authentication succeeded and the required permissions were verified for this subscription. You can proceed with onboarding."
4. Seeing the "Update" button in the footer become enabled (solid blue)

Update Secret -Update Success Confirmation

...I can **see the update success confirmation** by:

1. Clicking the "Update" button after successful validation
2. Seeing the form replaced by a success screen:
 - a. Large green checkmark icon (circle)
 - b. Heading: "Service Principal details updated successfully"
 - c. Sub-text: "The updated Service Principal details have been validated and submitted for this subscription."
 - d. "View other subscriptions" button (returns to the subscription list)
3. Seeing footer: "Having trouble? Contact us at support@montycloud.com" + "Close" button

The screenshot shows the MontyCloud CloudOps Dashboard. On the left, the 'Azure' account is selected under 'Cloud Accounts'. The main panel displays 'Azure Subscriptions' with a list of 12 subscriptions. A yellow banner at the top indicates that 6 subscriptions have expired or near-expiring Service Principal secrets. On the right, a modal window titled 'Acme Inc Azure Account' shows a green checkmark and the message: 'Service Principal details updated successfully. The updated Service Principal details have been validated and submitted for this subscription.' Below this message is a 'View other subscriptions' button. At the bottom of the modal, there is a 'Close' button and a link to 'support@montycloud.com'.

Update Secret -Updated Subscription List

...I can **see the updated subscription list after a successful update** by:

1. Clicking "View other subscriptions" on the success screen
2. Returning to the View Subscriptions panel
3. Seeing the updated subscription removed from the list (or its status updated)
4. Seeing the count [N] in the sub-header decremented by 1

The screenshot shows the MontyCloud CloudOps Dashboard. On the left, the 'Azure' account is selected. The main panel displays 'Azure Subscriptions' with a list of 12 subscriptions. A yellow banner at the top indicates that 6 subscriptions have expired or near-expiring Service Principal secrets. On the right, a modal window titled 'View Subscriptions' is open. It shows a table with 5 subscriptions that have expired or expiring secrets. The table has columns for 'SUBSCRIPTIONS', 'SECRET STATUS', 'EXPIRING IN', and 'ACTIONS'. The subscriptions listed are: 'AcmeInc_Dev' (Expiring soon, 1 day), 'Acme Inc Master Azure Account' (Expiring soon, 7 days), 'Acme_Prod' (Expiring soon, 30 days), 'Acme_Stage' (Expiring soon, 60 days), and 'AcmeInc_Dev' (Expiring soon, 90 days). Each row has an 'Update Secret' button. Below the table, there is a 'Results per page' dropdown set to 10 and a 'Showing 1 - 5 of 5' indicator. At the bottom of the modal, there is a 'Close' button and a link to 'support@montycloud.com'.

5. Edit Subscription -Edit BYOSP Subscription Details

Edit Subscription -Step 1: Subscription Details

...I can **edit the subscription name for a BYOSP-onboarded subscription** by:

1. Clicking the "Edit Subscription" action from the Azure Subscriptions listing page for a BYOSP subscription
2. Seeing the "Edit Subscription" wizard open with the title: "Edit Subscription - [subscription name] ([subscription ID])" (e.g., "Edit Subscription - hk-MontyCloudAzureTest11 (c7415d9b-009b-4d00-99ea-4d72009ca0c7)")
3. Seeing a 2-step left navigation: "1. Subscription Details" (active) → "2. Service Principal Details"
4. Seeing Step 1 heading: "Edit Subscription Details"
5. Seeing two fields:
 - a. "Subscription ID" -read-only, displayed as plain text (not an input field), pre-populated (e.g., "c7415d9b-009b-4d00-99ea-4d72009ca0c7")
 - b. "Subscription Name" -editable text input, pre-populated (e.g., "Acme_Testing")
6. Seeing two footer buttons: "Save & Close" (blue, checkmark icon) and "Next: Service Principal Details" (blue, arrow icon)

Edit Subscription - hk-MontyCloudAzureTest11 (c7415d9b-009b-4d00-99ea-4d72009ca0c7) Acme Web Services

✓ Save & Close Next: Service Principal Details

Edit Subscription -Step 2: Service Principal Details

...I can **edit the Service Principal details for a BYOSP-onboarded subscription** by:

1. Clicking "Next: Service Principal Details" on Step 1
2. Seeing Step 2 heading: "Edit Service Principal Details"
3. Seeing four fields:
 - a. "Azure Tenant ID" -read-only, displayed as plain text (not an input field), pre-populated (e.g., "c7415d9b-009b-4d00-99ea-4d72009ca0c7")
 - b. "Service Principal ID" -editable text input, pre-populated (e.g., "be204269-c1bb-48c0-be4d-ab9a0c2a0fb3")
 - c. "Service Principal Secret" -editable password input (masked dots), pre-populated
 - d. "Service Principal Expiry Date" -editable date picker with calendar icon, pre-populated (e.g., "03/13/2026")
4. Seeing the "Validate Credentials" button (red/coral, enabled) below the form fields
5. Seeing two footer buttons: "Save & Close" (blue, checkmark icon) and "Finish" (blue, checkmark icon)
6. Using the same 3-state validation logic as the onboarding flow (success / missing permissions / authentication failure) when clicking "Validate Credentials"

The screenshot shows a web interface for editing subscription details. The title bar reads "Edit Subscription - hk-MontyCloudAzureTest11 (c7415d9b-009b-4d00-99ea-4d72009ca0c7)". On the left, a sidebar shows two steps: "1 Subscription Details" and "2 Service Principal Details", with the second step being the active one. The main content area is titled "Edit Service Principal Details" and contains four fields: "Azure Tenant ID" (pre-populated with "c7415d9b-009b-4d00-99ea-4d72009ca0c7"), "Service Principal ID" (pre-populated with "be204269-c1bb-48c0-be4d-ab9a0c2a0fb3"), "Service Principal Secret" (masked with dots), and "Service Principal Expiry Date" (pre-populated with "03/13/2026" and a calendar icon). Below these fields is a blue button labeled "Validate Credentials". At the bottom right, there are two blue buttons: "Save & Close" and "Finish", both with checkmark icons.

6. First Run Experience (FRE) -Azure Onboarding

FRE -Step 2: Enter Subscription Details (Connect Account)

...I can **enter subscription details during the First Run Experience** by:

1. Seeing the FRE "Connect Account" page (Step 2 in the FRE wizard) with:
 - a. Left side: Lock icon with text "Securely connect your Cloud Account with MontyCloud"
 - b. Right side: "Enter Subscription Details" form
2. Seeing three mandatory fields:
 - a. "Subscription Name" -text input with placeholder "Enter subscription name"
 - b. "Subscription ID" -text input with placeholder "Enter your subscription ID"
 - c. "Connection Method" -two radio-card options:
 - i. "Create New Service Principal" (+ icon): "MontyCloud will generate a CLI command to create and configure a new Service Principal in your Azure subscription."
 - ii. "Use Existing Service Principal" (key icon): "Connect using an existing Service Principal in your Azure subscription."
3. Seeing "Previous" button (greyed out) and "Next" button (blue, enabled once all fields are filled)

MontyCloud CloudOps Dashboard VM Acme Web Services

+ Create New Service Principal
MontyCloud will generate a CLI command to create and configure a new Service Principal in your Azure subscription.

Use Existing Service Principal
Connect using an existing Service Principal in your Azure subscription.

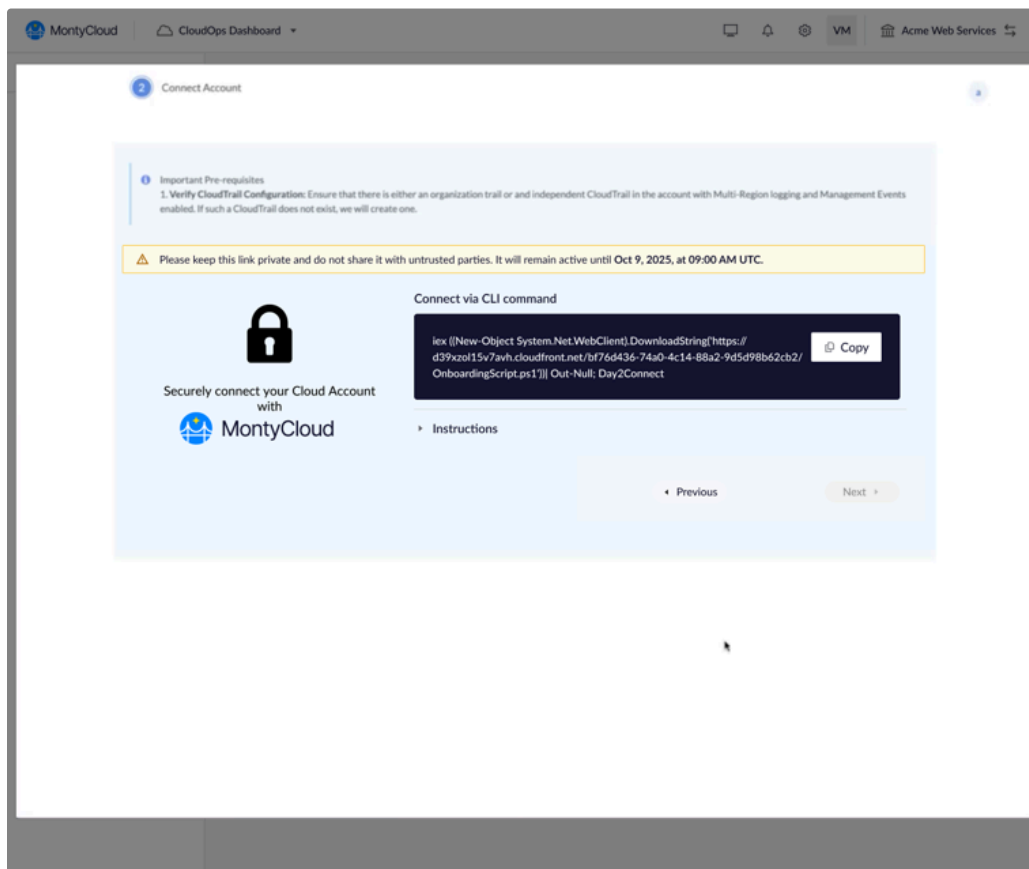

Previous Next

FRE -Create New SP: CLI Command & Instructions

...I can **view the CLI command after selecting "Create New Service Principal" in FRE** by:

1. Selecting "Create New Service Principal" on the previous screen and clicking "Next"

2. Seeing a blue info banner: "Important Pre-requisites" with CloudTrail configuration details
3. Seeing a yellow warning banner: "Please keep this link private and do not share it with untrusted parties. It will remain active until [expiry date/time UTC]."
4. Seeing a "Connect via CLI command" section with a dark-themed code block containing the PowerShell command
5. Seeing a "Copy" button on the right side of the code block
6. Seeing an expandable "Instructions" link
7. Seeing help links at the bottom: "What permissions does DAY2 need?" and "Read more about our partnership with AWS"
8. Seeing "Previous" button (enabled) and "Next" button (greyed out/disabled)

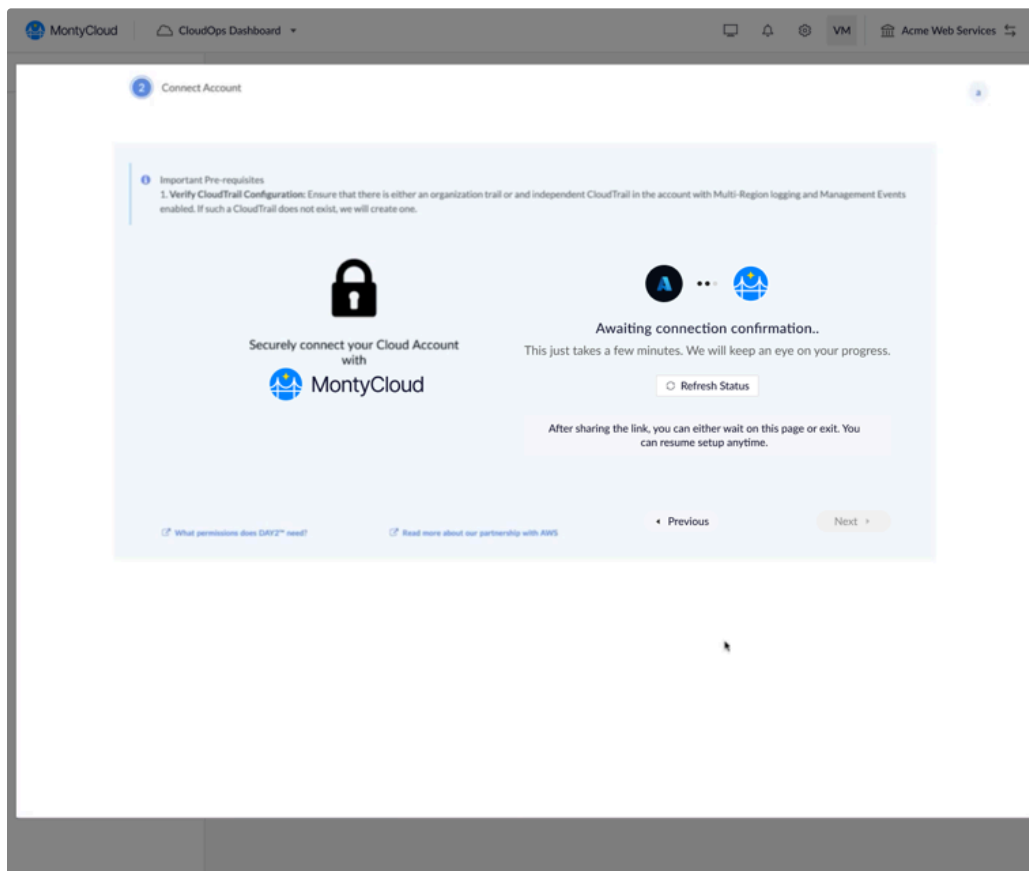

FRE -Create New SP: Awaiting Connection & Success

...I can **wait for connection confirmation in FRE** by:

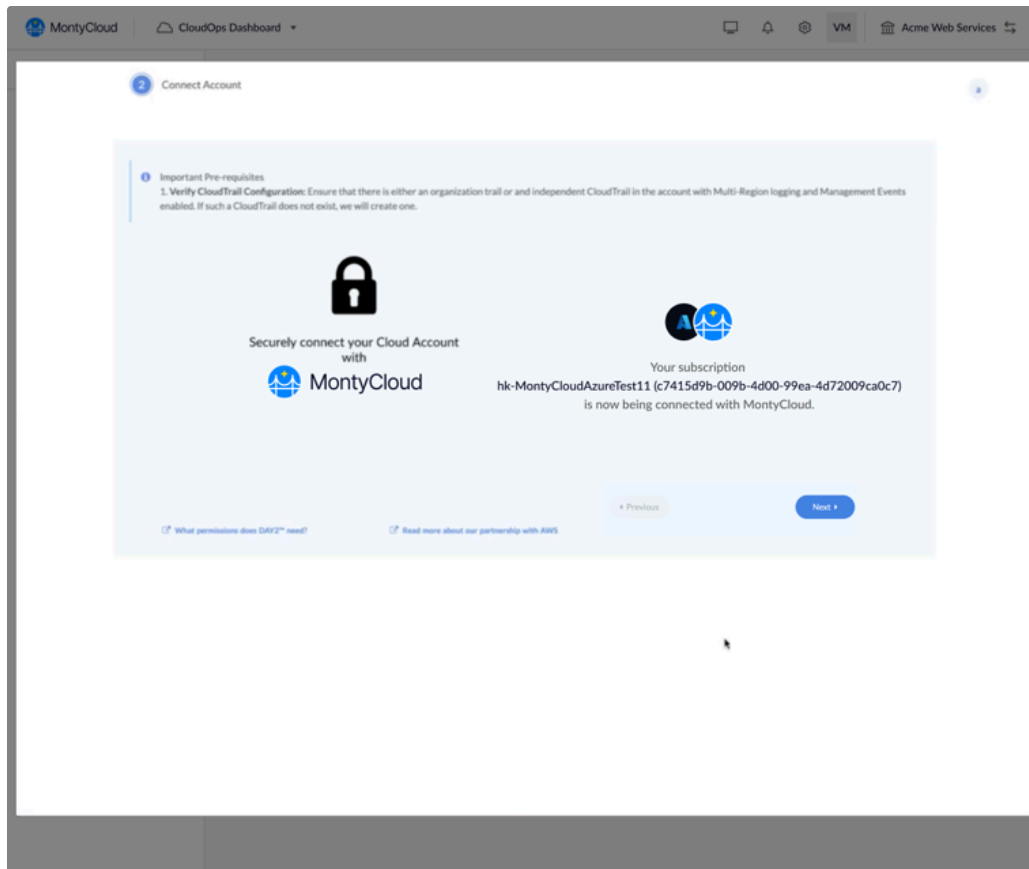

1. Seeing the Azure and MontyCloud logos with animated dots between them
2. Seeing the message: "Awaiting connection confirmation.."
3. Seeing sub-text: "This just takes a few minutes. We will keep an eye on your progress."
4. Seeing a "Refresh Status" button to manually check connection status

5. Seeing info text: "After sharing the link, you can either wait on this page or exit. You can resume setup anytime."

...I can **see connection success in FRE** by:

1. Seeing the Azure and MontyCloud logos overlapping (connected)
2. Seeing the message: "Your subscription [name] ([ID]) is now being connected with MontyCloud." (e.g., "hk-MontyCloudAzureTest11 (c7415d9b-009b-4d00-99ea-4d72009ca0c7)")
3. Seeing the "Next" button become enabled (blue)

FRE -Use Existing SP: Service Principal Details Form

...I can **enter Service Principal details after selecting "Use Existing Service Principal" in FRE** by:

1. Selecting "Use Existing Service Principal" on the subscription details screen and clicking "Next"
2. Seeing the "Provide Service Principal Details" form with:
 - a. Blue info banner: "To retrieve these details, refer to Azure documentation [here](#)." (with "here" as a clickable hyperlink)
3. Seeing four mandatory fields:
 - a. "Tenant ID" -text input with placeholder "Enter your Tenant ID"
 - b. "Service Principal ID" -text input with placeholder "Enter your Service Principal ID"
 - c. "Service Principal Secret" -text input with placeholder "Enter your Service Principal Secret"
 - d. "Service Principal Secret Expiry Date" -date picker with placeholder "Enter expiry date of the Service Principal" and calendar icon
4. Seeing "Previous" button (enabled) and "Next" button (greyed out/disabled until all fields are filled)

FRE -Use Existing SP: CLI Command, Awaiting & Success

...I can **view the CLI command and complete onboarding after providing SP details in FRE** by:

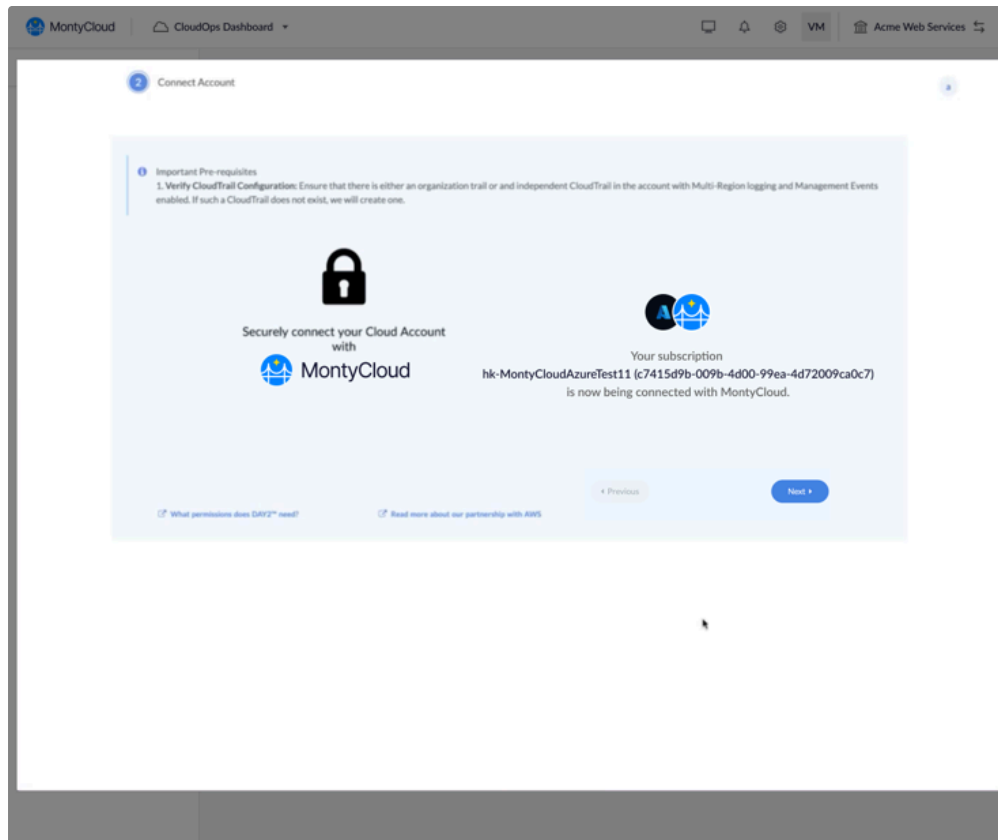

1. After filling all SP details and clicking "Next"
2. Seeing the same CLI command page as the "Create New SP" path:
 - a. Blue "Important Pre-requisites" banner
 - b. Yellow security warning banner with link expiry date
 - c. Dark code block with PowerShell command + "Copy" button
 - d. Expandable "Instructions" link

3. Seeing the "Awaiting connection confirmation.." state with Azure + MontyCloud logos, animated dots, and "Refresh Status" button

4. Seeing the connection success state: logos overlapping, subscription name and ID confirmed, "Next" button enabled (blue)

7. Offboarding - BYOSP Subscription Disconnection

Disconnect Subscription — Same Existing Flow

...I can **disconnect a BYOSP-onboarded subscription using the same existing flow** by:

1. Using the existing "Disconnect Subscription" flow - no UI changes for BYOSP
2. The backend detecting the subscription's `OnboardingType` (stored during onboarding) to determine which offboarding script to invoke
3. For BYOSP subscriptions: the offboarding script removing **only** MontyCloud-created resources (Event Grid System Topic event subscriptions, Resource Group and its contents)
4. Confirming the following are **NOT** removed for BYOSP-onboarded subscriptions (customer retains full control):
 - a. Service Principal (Azure AD Application)
 - b. Role assignments on the Service Principal
 - c. Role definitions
 - d. Any non-MontyCloud resources in the Azure subscription
5. For "Create New SP" subscriptions: the existing offboarding script running as-is (removes MontyCloud resources **and** the SP, role assignments, and role definitions)

Note: No new wireframes - the disconnect UI is the existing flow. The only change is backend routing logic. Refer to Requirement 8 for the backend routing table.
