

Cohort #2: Marvin Usage (Jan 19-March 3 2026)

Index

- [Summary](#)
- [Overall Usage](#)
- [Usage by Customer](#)
- [Usage Trend Graphs](#)

Summary

This document summarizes the usage of **Marvin Conversation** and **Apps** from **Jan 19 to Mar 3 2026 (Cohort #2)**.

The feature was enabled for **10 customers**, of which **6 had active usage**. In total, **69 prompts** were executed in **Apps** and **184 prompts** in **Conversations** during this period.

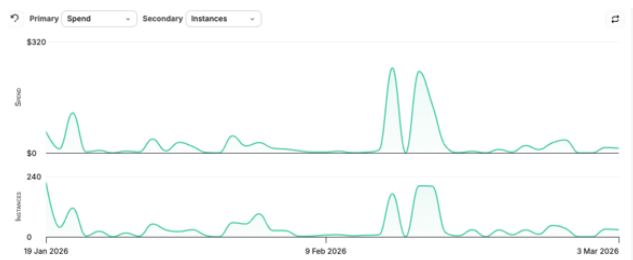

Usage was concentrated primarily in **TSWorks**, **Softchoice** and **nClouds** with minimal or no usage from the remaining customers. (Refer Section 2: Usage by Customers).

- TSWorks usage stopped after Feb 11.
- Softchoice usage picked up from Feb 25 onward (Refer Section 3: Usage Trend Graphs).

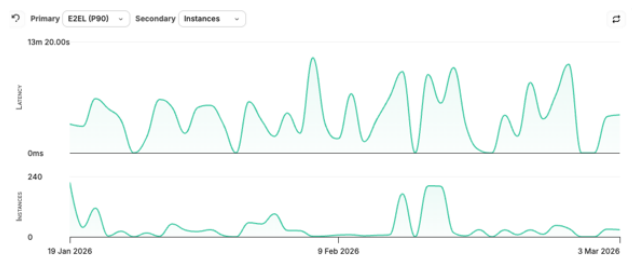

1. Overall Usage

 '# Instances' indicate the total number of prompts executed by the customers.

Agent	# Instanc es	AVG Spend	Total Spend	Failure %	Failure count	p50 Latency	p95 Latency
Conversati on	184	\$0.59	\$108.00	0.54%	1	1m 03s	6m 39s
Nuggets	69	\$2.12	\$146.20	0.00%	0	1m 52s	8m 49s
